

### Brilliant Cut- Colourlite Splashbacks

Love the look of tiles but hate the maintenance hassle of discoloured grout? We offer brilliant cut glass splashbacks- these offer the sleek look of tiles without unsightly grout or the risk of mould. These are an upgrade to our original Colourlite splashbacks. We create the tile design on the face of the low iron toughened glass using our CNC manufacturing centres, this is also where we would cut out any sockets or drill holes. Then we paint the back of the glass with the colour of your choice using our Kleenglass spray line.

Over 300 RAL, Farrow and Ball or British Standard colours to choose from.

Brilliant cut available in subway, rectangle and square tiles.
