*Heritage slimline double glazed units  
enhance the traditional character of a building*

*Ideal for listed properties,  
conservation areas and  
historic buildings.*

# HERITAGE UNITS

The Heritage unit is a narrow sightline unit with an overall thickness of 12mm-16mm, manufactured specifically for the historic and conservation sectors.

Due to their high specification they are suitable for:

- Listed properties
- Historic buildings
- Conservation Areas
- New builds
- Replacement & refurbishment projects

All of the units are manufactured using Edgetech's warm edge 'Heritage' Super Spacer, which offers the ultimate in thermal performance and eliminates any possibility of cold bridge produced by traditional aluminium spacer bars.

## 12mm Unit

Minimum Size 150mm x 150mm Maximum Size 600mm x 600mm  
7mm Sightline

4mm Super Low 'E' / 4mm Superspacer Warm Edge Cavity / 4mm Clear – Argon filled

**U-Value** 2.5 W/m<sup>2</sup>K

4mm Super Low 'E' / 4mm Superspacer Warm Edge Cavity / 4mm Clear –Krypton filled

**U-Value** 1.8 W/m<sup>2</sup>K

## 14mm Unit

Minimum Size 150mm x 150mm Maximum Size 750mm x 1000mm  
7mm Sightline

4mm Super Low 'E' / 6mm Superspacer Warm Edge Cavity / 4mm Clear – Argon filled

**U-Value** 2.0 W/m<sup>2</sup>K

4mm Super Low 'E' / 6mm Superspacer Warm Edge Cavity / 4mm Clear – Krypton filled

**U-Value** 1.4 W/m<sup>2</sup>K

## 16mm Unit

Minimum Size 150mm x 150mm Maximum Size 750mm x 1200mm  
7mm Sightline

4mm Super Low 'E' / 8mm Superspacer Warm Edge Cavity / 4mm Clear – Argon filled

**U-Value** 1.6 W/m<sup>2</sup>K

4mm Super Low 'E' / 8mm Superspacer Warm Edge Cavity / 4mm Clear – Krypton filled

**U-Value** 1.1 W/m<sup>2</sup>K
