

SEALED UNIT MANUFACTURERS
GLASS PROCESSORS &
TOUGHENERS

Ravensby Glass

WELCOME TO OUR COMPANY

One stop shop for commercial facades

Ravensby Glass is a well established company that started trading in 1985. Within our purpose built factories we manufacture and supply a wide range of glass and sealed units. We are part of the Malcolm, Ogilvie & Co Group who have had roots in Dundee manufacturing for over 170 years.

Ravensby Glass have and will continue to set the highest standards of quality for all processed products as demonstrated by our British Standard Certification:

BS EN 1279-2-3 for the manufacturing of sealed units
BS EN 12150-1 for the toughening of glass

We pride ourselves in our ability to maintain excellent customer satisfaction and fast, high quality product dispatch. We deliver to a wide spectrum of companies throughout the UK on a daily basis via our extensive fleet of articulated trucks, HIAB cranes and 18 tonne lorries, purpose built to hold the carriage of 'A' frames designed to transport glass and sealed units.

BS EN 1279-2-3 BS EN 12150-1
KM 25420 KM 54502

HIGH PERFORMANCE GLASS

Ravensby Glass process high performance low emissivity and solar control glass from the leading European glass manufacturers and coaters, enabling compliance with the wide variations of end client specifications.

GLASS STOCK

We stock over 200 different glass types offering solar control, low 'E', acoustic and decorative solutions to meet the modern day demands of a wide spectrum of new buildings.

IN HOUSE PROCESSING

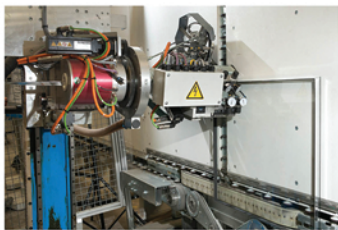

- Stepped units
- Toggle units
- Heat tempering
- Heat soaking
- Edge deletion
- IGU lines
- Arrissing
- Painted spandrel panels
- Toughened laminating
- CNC processing
- Fire glass

SEALED UNITS

We use market leading warm edge spacer bars with excellent PSI values to assist the designer in achieving the required overall building energy factor.

Processing double and triple glazed units achieving 'U' values down to 1.0 for double glazed units and 0.5 for triple glazed whilst maintaining high levels of light transmission and low levels of solar gain.

AUTOMATIC MACHINERY FOR PROCESSING OF LARGE IGU'S

High specification automatic machinery allows us to process large insulated glass units with exceptional quality and quick lead times.

Our Glaston tempering furnace consistently processes a roller wave tolerance that is considerably lower than the minimum industry standards.

HIGH SPECIFICATION GLASS PROCESSING

COLOURLITE SPANDREL PANELS ARE MANUFACTURED THROUGH A UNIQUE AUTOMATED SPRAY SYSTEM OFFERING A PAINT FINISH TO ALL RAL AND BS COLOUR OPTIONS. FOIL INSULATION CAN BE APPLIED TO OFFER IMPROVED THERMAL EFFICIENCY.

MANUFACTURING TOGGLE INSERT UNITS FROM LEADING ARCHITECTURAL ALUMINIUM SYSTEMS COMPANIES WHICH ARE CALCULATED AND MANUFACTURED FOR A WIDE SPECTRUM OF IGU'S.

ENDUROSIELD IS A SELF CLEAN COATING THAT CAN BE AUTOMATICALLY SPRAYED TO ANY OF THE GLASSES WITHIN OUR STOCK AND CAN BE COMBINED WITH SILICONE EDGE SEALS AND GLAZING PRACTICES.

WE HAVE SPECIALIST HEAT SOAKING OVENS TO MEET THE EVER INCREASING SPECIFICATION BY DESIGNERS TO SAFEGUARD THE LONG TERM INTEGRITY OF THE GLAZING.

IN-HOUSE TOUGHENING FACILITIES

Enable us to supply toughened glass products to all industry sectors at the highest level of quality and service.

TOUGHENED LAMINATED MACHINERY

Processing toughened laminate glass using PVB and EVA interlayers offering a solution to high level safety and barrier loading requirements, including acoustic and security options.

TO MEET EVER INCREASING INDUSTRY DEMAND FOR LAMINATED PRODUCTS WE HAVE INSTALLED HIGHLY ACCURATE AUTOMATED LAMINATED CUTTING MACHINERY WHICH ALLOWS US TO SUPPLY HIGH SPECIFICATION LAMINATED GLASS IDEAL FOR A RANGE OF APPLICATIONS.

EXTENSIVE FLEET OF DELIVERY VEHICLES

Ravensby Glass have a UK commercial supply network administered by our own in-house logistics department. They plan, arrange and track deliveries to ensure timeous deliveries to site whilst ensuring the glass is packaged in a safe and site friendly condition.

Our extensive fleet of transport includes articulated trucks with forklift attachments, HI AB crane vehicles operated by fully certified company operatives, and a variety of other delivery trucks designed and maintained to deliver to sites in every corner of the UK.
