

Colourlite is a made to measure opaque coloured glass which is ideal for:

- Kitchen and bathroom splashbacks
- Shower and wet room walls
- Wall coverings or architectural features
- Worktops and tabletops
- Spandrel Panels
- Glass tops for office and hotel furniture
- Display cabinets
- Reception Desks

Our coloured glass range, Colourlite is a stylish alternative to tiles and worktops. Glass is the cleanest and most hygienic surface available and when painted with one of our over 300 Ral colour choices creates a striking look.

We process Colourite glass using a combination of laser guided drills, CNC cutting machines and a toughening furnace, to accurately process cut outs for sockets, hobs and basins.

Our innovative Kleenglass automatic paint line ensures each Colourlite pane is processed with an even coverage of paint.
